

Tabitha Gottipati

tgottipati@ufl.edu | (904)-947-9494 | linkedin.com/in/TabithaGottipati | Jacksonville, Florida (Open to relocate)

Education

Bachelor of Science in Mechanical Engineering and Minor in Computer Science

May 2027

University of Florida (UF) - Gainesville, FL

GPA: 3.95/4.0

- **Relevant Coursework:** Fluid Mechanics, Design & Manufacturing Lab, Heat Transfer, Controls

Allen D. Nease High School

May 2023

International Baccalaureate Diploma

GPA: 4.74/4.0

Skills

Certification: CNC, Fusion 360, Inventor, AutoCAD, Revit, Solidworks, Creo

Experience: Manual Lathe and Mill, Python, Matlab, C++, Dynamo, MiniTab, PowerBI, BlueBeam

Work Experience

Medtronic Surgical Robotics Internship

June 2025- August 2025

- Drafted biocompatibility memo for 9 wristed instruments to help determine patient-contact area
- Tested M-IRR instrument subsystems using different methods such as Instron
- Drafted a report summarizing testing, data analysis, and conclusions of M-IRR verification
- Drafted report verifying updated requirements and design products for 8 instruments

College of Engineering Teaching Assistant

January 2025- December 2025

- Numerical Methods - Held supplementary review sessions, graded assignments, and reviewed code
- Computer programming for engineers (MATLAB) - Graded assignments, exams, held office hours to debug code
- Design and Manufacturing Lab - Led students through design project of manufacturing an air engine.

NASA Space Trek Academy

July 2025- August 2025

- Worked to design and launch a functioning weather balloon
- Team lead for payload using geiger counters and space suit samples to test radiation exposure
- Programmed and integrated sensors into flight controller

Arco Murray Construction Project Management Internship

May 2024- August 2024

- Created the preliminary steel, stormwater drainage, and concrete designs for 4 project proposals
- Created job budget proposal for a 6 building job site
- Called subcontractors and created bid package for 2 jobs

Stellar Mechanical Engineering Internship

Summer of 2022 and 2023

- Cleaned up old Revit models and found ways to use old data to streamline the design process in the future
- Programmed dynamo graphs that helped standardize Revit models and make them more efficient.
- Learned about different HVAC systems and the engineering work environment

Campus Involvement

Society of Asian Scientists and Engineers (SASE)

September 2023- Present

SASE Networking Chair

- Liaison between our current chapter members and UF SASE alumni
- Host alumni spotlights at general body meetings with 250+ attendees by fostering alumni network on social media platforms
- Assist in hosting company info sessions with 20+ attendees by nurturing professional relations with corporate recruiters

SASE Engineering Team

- Redesigned legs mechanical design multiple times to optimize the robots range of motion
- Designed test method for robotic dog legs to ensure proper input to output torque and functionality
- 3D printed and assembled robotic dog and ensured cross-team communication integration

Awards

- Dream Team Engineering Designathon 1st place
- Northeast Florida Engineers Scholarship
- National Merit Scholar
- St Augustine Citizenship Award
